

Dual Degree/Second Degree Petition

To the student: In submitting this petition you are making a request to pursue two bachelor's degrees, either simultaneously or in succession. In order to formulate your degree plans, it is recommended that you work closely with advisors from both the John Glenn School of Public Affairs and your other college. All requirements for both degrees must be met in full and both academic units must grant approval of the dual degree program plan. In order to graduate with dual degrees, you must provide a separate graduation application to each college for each degree. Consult your academic counselors for details.
